

MORE GUN BANS ARE COMING

WHAT'S HAPPENING & HOW TO STOP IT

1 LOOK AT WHAT THEY DID

Liberals vow to "get assault weapons and handguns off our streets" despite Canada having the lowest rates of firearm related violence in decades.

Liberals introduce Bill C-71, aimed almost entirely at licensed guns owners including bringing back 2/3rds of the long gun registry.

The Liberals roll out a sweeping & historic gun ban in May 2020, justified by the spree shooting in Nova Scotia. The perpetrator smuggled all the firearms used, from the United States.

With crime almost entirely out of control, the Liberals respond by "freezing" the market on only legal handguns possessed and registered by licensed firearm owners.

With runaway violence continuing to damage Liberals in the polls, they rollout a massive new long gun ban affecting a wide variety of 22 calibre semi-autos, exclusively from licensed gun owners.

Liberals formulate Bill C75 that changes bail conditions and other aspects of the justice system allowing violent criminals to be released even after repeatedly committing violent offenses.

As firearm-related and violent crime in Canada spikes, Liberals intensify their campaign to paint licensed gun owners as the reason for increasing violence.

Firearm related violence continues to increase to historic levels. The Liberals continue to link their persecution of licensed gun owners as their solution.

Liberals pass Bill C-21 legislating their handgun ban as well as prohibiting all new semi-autos with detachable magazines in the future.

FACT

This has been done by the Liberal Party of Canada with the full and unconditional support of the NDP and Bloc Québécois.

2 WHAT YOU CAN DO ABOUT IT

A In the upcoming election, do not vote for a party that confiscates your property as a result of their failure to keep Canadians safe.

B When the polls open, bring everyone you know to vote with you — your friends, family, hunting buddies, community, and neighbors.

FACT

We cannot fail.

If we do, we will lose it all and so will generations to come.
